SECTION 1.

50 YEAR PRODUCT WARRANTY

History tells us Market needs often dictate product development. We also know that products used in different regions around the globe may not be suitable for the harsh Australian environment that requires dedicated product development that will stand the test of time.

At Robusto Plumbing Systems, we understand this. Our research team spend significant time & effort testing our product to ensure it meets the need of the Australian market.

All fittings across our gas and water range are made of the premium quality, corrosion resistant, DR Brass providing both reliability and strength to stand the test of time.

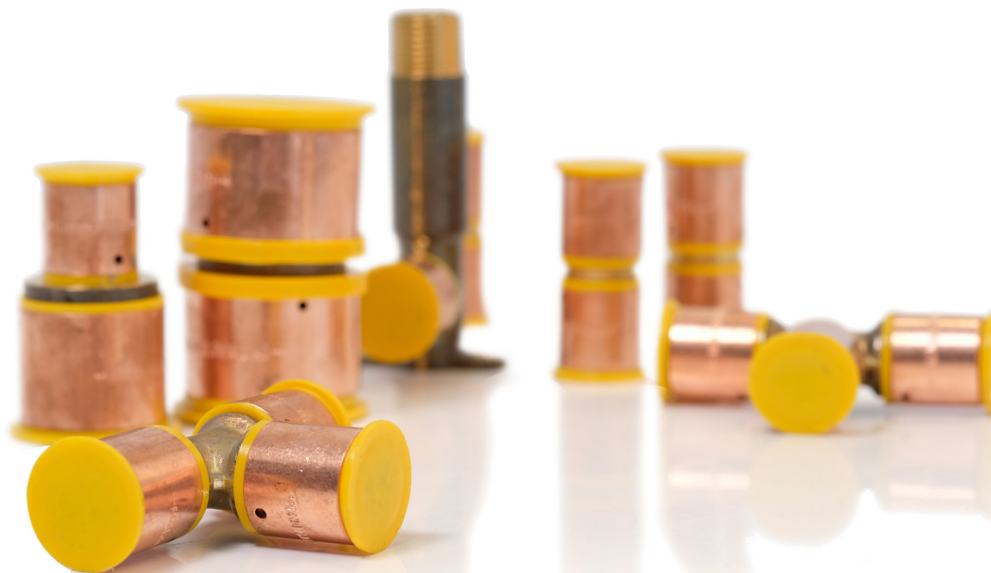

UV Resistant to handle the harsh Australian conditions.

Sold in Australia by Plumbers Supplies Co-op assuring availability of supply across the range.

We believe in the quality of our product at Robusto Plumbing Systems, therefore we are proud to announce a 50 year warranty on both our gas and water systems.

SECTION 1. INTRODUCTION

Robusto Plumbing Systems are manufactured exclusively for Plumbers Co-op by Forza Global, The World Force in Plumbing Systems who are an Australian Owned & Operated business that provides exceptional service and quality products throughout Australia and New Zealand. Robusto Gas Systems includes the BRASS FITTING COPPER RING CRIMP system for potable water, rainwater and recycled water.

GAS PIPE

Robusto Gas Pipe is multi layered, incorporating a layer of aluminium between an inner of PE-X and an outer of HDPE. This combination gives stability while still being flexible and strong.

Robusto GAS Pipe is guaranteed against manufacturing defect for a period of 50 years when installed and used in accordance of the Australian and New Zea-

land Plumbing Codes and or the Local or State Authority and when installed by a licensed Plumber. Robusto Gas Pipe complies and is manufactured in accordance with the standards as set out in AS4176.

GAS CRIMP

Robusto Gas Crimp fittings are Manufactured from quality DR Brass and are precision CNC machined to Australian and New Zealand Standards.

Robusto GAS Crimp fittings have strengthened copper rings with depth inspection windows and the longest joining barbs on the market.

Robusto Gas Crimp fittings do not rely on an 'O' Ring for gas seal, using Robusto Gas

eliminates the risk of installer error due to damaged or rolled 'O' Rings.

Robusto Gas Crimp unlike other systems will fail a manometer test if fittings are not crimped, thus eliminating the chance of fittings blowing at a later date when under pressure for a period of time.

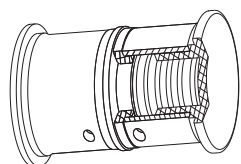

SECTION 2. ROBUSTO GAS PIPE PACKAGING

PIPE SIZE	PACKAGING
16MM	5M LENGTHS, 100M COILS
20MM	5M LENGTHS, 100M COILS
25MM	5M LENGTHS, 50M COILS
32MM	5M LENGTHS, 50M COILS

SECTION 6. CERTIFICATE OF CONFORMITY

ISO
TYPE
5

CERTIFICATE OF CONFORMITY

ApprovalMark International hereby grants:

Forza Global Pty Ltd

2/8 Barclay Road
Derrimut, VIC 3030
AUSTRALIA

ISO Type 5 Certificate of Conformity

Evaluated to:

AS 4176.8: 2010 - Multilayer pipes for pressure applications

Part 8: Multilayer pipe systems for consumer gas installations with a maximum operating pressure up to and including 5 bar (500 kPa) - Specifications for systems (ISO 17484-1:2006, MOD)

The ISO Type 5 License shall comply with all the terms and conditions as stipulated by the governance of the operating rules of the ISO Type 5 Scheme and shall comply with the standard requirements at all times including when the standard is amended. The ISO Type 5 License only covers the product which is identified in the attached product schedule.

Certificate No. AMI 74632

Issued: 2nd August 2022

Original Issue: 12th August 2015

Expires: 12th August 2025

SECTION 7.

CRIMP GAS INSTALLATION INSTRUCTIONS

The following instructions explain the correct installation procedure for Robusto Crimp Gas fittings in conjunction with Robusto Gas pipe.

With a set of pipe cutters /shears cut the pipe at 90° ensuring the pipe is square on the end.

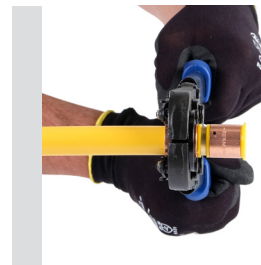

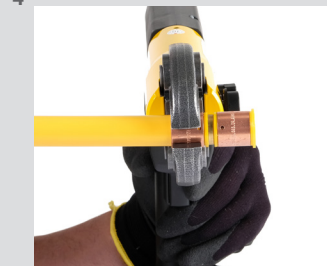

Round the cut end of pipe with the rounding tool.

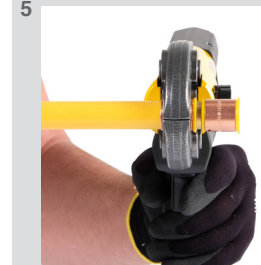

Push fitting onto pipe until pipe is visible through the viewing port on copper ring. This ensures that pipe has been inserted to the correct depth.

Position tool so that the jaws of the tool are in the centre of the copper ring.

Proceed to crimp the fitting until jaws of tool are completely closed.

Once crimp is complete test with gauge. Gauge will slide over copper ring if it has been done correctly.

SECTION 8.

50 YEAR PRODUCT WARRANTY

Robusto Gas pipe and fittings are guaranteed against manufacturing defects for a period of 50 YEARS when installed and used in accordance of the Australian and New Zealand Plumbing code and or the LOCAL or STATE Authority when installed by a licensed PLUMBER.

Robusto Gas Pipe & Fittings comply with the standards as set out in AS 4176.8 - 2010 Polyethylene/Aluminum and Cross-Linked Polyethylene/Aluminum macro-composite pipe systems for pressure applications.

The policy covers public and products liability of \$50,000,000 per Occurrence and in the aggregate (as applicable), in accordance with the Policy terms and conditions.

This warranty covers Crimp Gas by Robusto Plumbing Systems. The warranty is void where the installer does not use Robusto Plumbing Systems fittings and pipe together.

*This warranty only applies to installations whereby a document can be provided detailing that the installation has been pressure tested to AS/NZS 5601.

SECTION 9. INSURANCE CERTIFICATE

Allianz Australia Insurance Limited

General & Products Liability Insurance Certificate of Currency

This Certificate of Currency has been issued by Allianz Australia Insurance Limited and confirms that on the Date of Issue the Policy is current for the Period of Insurance and Limit of Liability as shown herein. This Certificate of Currency is issued as a matter of information only and confers no rights upon its holder.

This Certificate of Currency does not form part of the terms and conditions of the Policy and does not amend, extend, replace or alter the terms, conditions, definitions, limitations and exceptions noted therein.

This Certificate of Currency is provided as a summary only of the cover provided and is current only at the Date of Issue. The Policy may be subsequently altered or cancelled in accordance with its terms after the Date of Issue of this notice without further notice to the holder of this notice.

Certain words used in this document and the Policy have special meanings. The Definitions section of the Policy document contains such terms. Please read the Policy wording, the Schedule and any other documents that form part of the Policy for the terms and conditions of cover.

SECTION 10.

FREQUENTLY ASKED QUESTIONS

Q. Can you rotate a Robusto Crimp Gas fitting once installed?

A. No, once pressed, it cannot be rotated.

Q. Can Robusto Crimp Gas be dismantled and reused?

A. No, this is a permanent installation.

Q. What is the warranty on Robusto Gas Crimp?.

A. The product has a 50 year limited warranty when installed and used in accordance of the Australian Plumbing code and or the LOCAL or STATE Authority.

Q. Are there any storage issues?

A. Fittings should be stored in a cool dry place in their original packaging. This protects the fittings from contamination, damage and dirt.

Q. Do I use Robusto's recommended tooling?

A. Our tools are designed for use on our systems to ensure the system is warranted. Other approved brand tools may be used should they meet our standards. Check with Robusto Plumbing systems to make sure you're covered.

Q. How is the Robusto Crimp Gas system installed?

A. You can check how each system is installed by viewing the installation guides available from the downloads tab on the home page.
